Description	Dazzle was conceived by some jazz lovers on January 7, 1997. It continues to focus on the values of art, with the best being improvised at and for the moment. The Dazzle family believes that the improvised art of these times will be the record of these times. We are on the cusp of a new revolution of expressive arts. We introduce DAZZLE PRESENTS, an invitation to further the community through these expressions in this chapter of human life. Choose your creative skill, use your imagination to express the beauty and emotion of this time. Submit that of which is in your head, and in your heart. This can be the greatest improvisation of our current moment in life. Let it be the highest manifestation of your freedom. Let it be good or evil, provocative as it will, this will be your connection of this time. Let a new language emerge of a new era, a new society. Express, Improvise, Live, Love, Give and Listen MORE.
