Description	We collect, clean, and repair gently used musical instruments and award them to Title I and under-resourced school music programs across Colorado. By partnering with the teachers, school districts, and instrument repair shops, Bringing Music to Life helps expand access to music education by overcoming the significant barrier of obtaining a musical instrument. Over the past 14 years, Bringing Music to Life has distributed 9,500 instruments to 360 schools across Colorado, impacting over 25,000 young musicians.
